

HOW TO READ YOUR BILL

Understanding your energy usage has never been easier!

Your bill provides you with detailed information about your account. Not only can you view how much energy you use each day, but you can also see the average daily cost, how outside temperature affects your home's energy usage, and how your current energy consumption compares to the year before.

In addition, we invite you to explore the services and information available in PUD 3's SmartHub app at my.pud3.org.

7 Neighbors helping neighbors
 Enroll in the easiest good thing you'll ever do! When you enroll, each month your bill will be rounded up to the nearest dollar, and these extra pennies will go to help your neighbors in need.

1 Find your account number
 Use it to pay over the phone or sign up for SmartHub @ mypud3.org

2 Information you can use
 Find important messages from your not-for-profit PUD.

3 Your average daily use
 We break down your monthly usage so you can see your average per day, both in energy usage and daily cost.

4 Look back and compare
 Take a look at your energy usage compared to last month, as well as this month last year.

5 Temperature affects energy usage
 This graph shows your daily energy use and adds the daily temperatures so you can easily see how weather impacts your energy use throughout the month.

6 Pay your way
 Sign up for one of our autopay options in SmartHub, pay by phone, or return this portion with payment.

An electric water heater can account for up to 25% of a home's energy bill. To reduce energy usage and help prevent scalding, the U.S. Department of Energy recommends setting a residential water heater to 120°F. Each 10°F reduction in water temperature can save 3% - 5% on an energy bill. Save energy and help make your home safer by reducing the water heater's thermostat.
