

Outdoor LED Lighting

Safeguard your home & business with security lighting

What's Included:

- Installation • Fixture • Existing Pole • Energy • Maintenance
- PUD 3 will install, own, maintain and operate suitable outdoor lighting fixtures on brackets attached to poles. This includes refractors and controls, and the energy supply for the lights. The PUD and customer will decide where to place the pole. All trenching, installation and material costs for an underground power line to the light's location is the responsibility of the customer.
- All outdoor light replacements and other maintenance will be done by PUD 3. Fixtures and glassware broken other than through acts of the PUD or its employees shall be paid for by the customers. The price will be the cost to replace the damaged materials. If an outdoor light is not working, the customer needs to report it as soon as possible. Repairs will be made during regular working hours. Repairs requested to be done outside regular working hours will be at the expense of the customer.
- Seasonal service is not available under these rates.
- Rate is based on a 30-foot pressure treated pole, 3-foot or 6-foot arm and one span of overhead secondary wire (#6 duplex).

Connecting our community with safe, reliable, economical, and sustainable services, 24/7

LED Area Light	\$.35 per day	\$.31 per day
LED Street Light	\$.40 per day	\$.34 per day
Pole Charge	\$.10 per pole per day	

Outdoor lighting provides dusk-to-dawn illumination. This means an extra measure of security for your home or business. Area lights can discourage prowlers by eliminating shadows, making your property more secure. Outdoor lighting can also give you more time for recreational or maintenance activities after dark. If you have an outdoor area that needs more lighting consider PUD 3's Outdoor Lighting program. It's really simple to get started, and you don't have to buy or install the light fixtures.

LED Area Lights

Available to all PUD 3 customers.
Common applications include:

- **For Your Home**
Yard lights for convenience, safety and security.
- **At Your Business**
Welcome customers while ensuring safety and security.
- **In Your Community**
Homeowners associations, clubhouses, parks, mailboxes, cul-de-sacs, etc.

LED Street Lights

Choosing the right light for the right place.
PUD 3 staff can help you determine the right light for the right application. Give us a call to discuss lighting design options.

- **For Our Government Partners**
- **Homeowners Associations**
- **Special Applications**

TYPE II For most 2-3 lane streets

TYPE III For wider streets and unique applications
